The Type of Board We Need

The Pinnguaq Association seeks dynamic and diverse board members looking to build upon the work we've done to date and bring unique perspectives to S.T.E.A.M learning in rural and remote communities.

Our board should be the agents of standards for the organization, the foundation builders, and strategic planners. Their expertise will help guide the direction of our organization and their support will be critical to our success. This board exclusively acts as stewards and bearers of standards and devotes its attention to overseeing and supporting the planning and implementation of strategic direction of the organization.

We want a diverse board that will be committed to the growth of our organization while keeping our communities best interest at the heart of our work.

We want board members with broad knowledge and experience that they can apply to discussions and decisions. Our board should have the courage to ask the tough questions and voice their opinions. At the same time it is important our board can work together. They must have a willingness to learn and listen and be oriented to resolve conflict and support board decisions once they have been made.

Procedure for board applicants:

We will recruit board members through a combination of Community Outreach and Personal Outreach.

Community Outreach

To best serve our community and ensure we build a diverse board we will be building out a community outreach plan to open our BOD job openings up to our community members and partners.

Personal Outreach

In addition to a community outreach strategy our Senior Leaders are encouraged to bring forward applicants they believe would be a strong fit for our board. All applicants will have to go through the same interview process to ensure we achieve an effective board.

1. The board shall evaluate and recommend candidates for the board and/or post publically for new board members.
2. Candidates will submit an application to the board.
3. In evaluating candidates, consideration shall be given to
 - a. organizational needs
 - b. board balance and diversity
 - c. leadership ability
 - d. availability to serve and
 - e. other factors the board may specify, including financial literacy.
4. Candidates will be screened and those selected will be invited for interviews. The interview process will include conversations with the existing board of directors, the CEO and any other participants as needed. Upon a selection, a successful candidate will be provided with a contract and training.
